~ Our Mission Statement ~

Welcome to Mobum!

Serious misalignment and unnatural motions of body parts can be signs that there is harm being done .

There is an unmet need for an at-home wearable movement tracker to detect such harm while being low cost and low profile.

Meet Mobum.

The Wearable Medical Device MARKET:

The Wearables market is an **EXTREMELY** fast growing market:

\$4.8 Billion in 2015
\$5.5 Billion in 2016
\$19.5 Billion in 2021

Between 2015 and 2021, the wearables market is predicted to grow at a compound annual growth rate (CAGR) of 28.8%.

Optimal self-management of health and chronic disease is highly correlated with personalized care and medicine. Wearable medical devices are the new frontier.
